

## Regulations and Aerodynamics Review

We all know the cloud clearance requirements, airspeed limits and the more common "gotchas", but what about the obscure regulations that can bite you like they have bitten other non-suspecting airmen. Come and take a newly minted test on aerodynamics and regulations. No need to raise your hand and ask the "dumb" question, as we will be using the "clickers" to answer the questions. Just a good review for all levels of pilot experience.

**Directions:** Coming from the East, take Exit 291B. Keep right on Indiana Ave toward Sullivan Rd. Turn left onto Sullivan and go over freeway, up hill to 2nd signal, turn left into parking lot for the hotel. Coming from the West, take Exit 291B. Turn right. Go up to signal and turn left into parking lot for hotel.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

### Event Details

**Wed, Sep 16, 2015 - 18:00 MST**
